

Minor Consent Form

Office Policy

For all NEW patients under the age of 18, our office requires that the parent/legal guardian bring the child to their first dental appointment. Parent/legal guardian must give consent for ALL dental treatment. The parent/legal guardian granting consent must be legally authorized to do so. Minor patients who present to their first dental appointment without a parent/legal guardian present will not be seen.

Every 12 months, our office requires an update of patient's paperwork. The parent/legal guardian must be present at this appointment to update all paperwork. If an unaccompanied minor presents to this appointment without a parent/legal guardian, the child will not be seen.

Authorization

I have the legal right to authorize Augusta Regional Dental Clinic and its personnel to deliver dental treatment and services to my child. In the event of an emergency, I authorize emergent services, including the aid of 911/EMS.

I hereby authorize the adults listed below to bring my child to his/her appointments if I am unable to attend. I understand that medical/dental advice will be relayed to them on my behalf. Minor patients who present for an appointment within the 12 month period and are not accompanied by a person who was granted permission from parent/legal guardian, will not be seen. This form will remain on file until guardian advises otherwise.
